

Take Home Assessment

1. Create a new web site. It should have 2 pages.
2. Both pages should have identical layout/design.
3. One of the pages should use FLEX for layout with title "One".
4. The other one should use GRID for layout with title "Two".
5. Use the layout below:

DESKTOP

 Shows boundaries of the content container

6. Requirements

Must be completed:

- The site should always take 100% height and 100% width of the viewport.
- HEADER and FOOTER are always visible.
- TEXT FORM FIELDS are text input fields and are part of a single form (any value is valid). All fields are required. Validation errors are optional.
- If the form is invalid SUBMIT button should be disabled.
- If the form is empty, the RESET button should be disabled.
- In mobile mode the site should look as below.
- SUBMIT button should navigate to the other component (toggle/endless loop).
- RESET button should reset the colors of the app and clear the fields.

- Each MENU ITEM should have a unique color, and by clicking on it HEADER, FOOTER and buttons should change background color to the color of the MENU ITEM. Selected color should remain after navigation.
- Scrolling may occur only on the BODY element (pink). No global scrolling (viewport).
- Content container should always be centered vertically and horizontally.

Complete as much as possible in any order:

- MENU ITEMS and buttons should have a hover effect.
- SIDEBAR and MENU ITEMS have a fixed width.
- TITLE, TEXT FORM FIELD and buttons should be responsive.
- Try to keep the proportions as on the image.
- Content of each box is not relevant. Just some text (except form fields).
- Colors are optional, make your choice.
- All borders are optional. You can make them any color and thickness you want.

MOBILE: iPhone XS

The diagram illustrates a mobile app layout for an iPhone XS. It consists of three main sections: a yellow header bar at the top labeled 'HEADER', a pink body area in the middle labeled 'BODY', and a green footer bar at the bottom labeled 'FOOTER'. Within the body area, there is a blue title bar labeled 'TITLE', followed by four white text form fields, each labeled 'TEXT FORM FILED'. At the bottom of the body area, there are two light blue buttons labeled 'RESET' and 'SUBMIT'.
